Step 01 - **Download** Product Size Templates.

Download

Open

Prepare your artwork

Product Size Template

Final Print

Full Bleed

Trim Size

Safe Zone

- You **MUST** download and use the appropriate Product Size Templates to prepare your artwork.
- These templates do not contain any designs. They are specific application files which includ
  predefined guide-lines indicating bleed, safety, and trim lines.
- Preparing artwork in your own template may not meet our sizing specifications and so they may be rejected.
  These templates can help eliminate artwork setting error.

Step 03 - **Convert** final artwork to PDF according to EXCARD's specification

MUST DO!

Convert Final Artwork to PDF
Selecting the Right **Acrobat** Compatibility!

- Please understand although we try our best to get your orders completed correctly and on time, there is a limit to our artwork file filtering system.
- We would like to remind you to convert your artwork to **PDF** and select the **RIGHT COMPATIBILITY** according to the designing software you use, BEFORE uploading your files to us for printing.
- If your files are not saved accordingly, they are at a high risk of losing graphics and text in the output.
